California is now under contract to perform certain developmental work, the contract number being RD-1.

In connection with this work it is requested that the following experimental sample equipment be shipped to the above address for use in connection with their work:

1. The steam generator procured from the British during the war.
2. 1 ea. alternator Card A-89 *modified for sep-8 Jacobsen*
3. 1 ea. generator Card G-72 *sep-12*
4. 1 ea. engine model Card E-27 *gen. Jacobsen Prototype*

It is requested that these be held as expendable for experimental purposes in the normal fashion as if used in our own Laboratory with disposition to be accounted for by the Contractor in his reports and to be picked up later if ~~the~~ unused when experiments have been concluded.
